The fusible elastic core makes buttonfuse® TF thread super strong!

Proven & specified by the major brands of the world.

We have the world's largest range of threads + our high stockholding levels mean that they are readily available exactly when you need them most!

Our thread is the ideal partner to the buttonfuse range of machines. The high quality components guarantee button security from shirts to raincoats.

Manufactured to be 100% consistent to ensure a perfect shank appearance with a soft finish. A fusible & highly elastic core makes buttons secure & super strong with no loose ends.

Our thread has been tested to withstand the rigours over the lifetime of the garment. It is certified by Oeko-Tex & complies with all other industry standards.
