

# buttonfuse® TF thread is ECO-friendly & made from 100% recycled plastics

buttonfuse® technology since 1994

MMS buttonfuse® TF thread is a special purpose button shank wrapping eco-thread for use on our wrapping systems.

It has many features specifically developed to ensure a perfect shank appearance with no button loss.

As part of our sustainability mission the buttonfuse® TF thread is made up of 100% recycled plastics from worn or abandoned fishing nets & waste nylon chips, meeting Global Recycled Standards (GRS).

Our recycled threads are now spooled on 100% FSC certified recycled paper cones, so buttonfuse® TF thread is kinder to the environment without compromising on quality.

## THREAD SPECIFICATION:

Thread weight per cone:  
22g

Length per cone:  
260 metres

Elasticity:  
430%

Stretch to break rate:  
approx. 4,3

Strength:

960 dtex (960g per 10,000m)

Melting temperature:

The melting component is activated at 130°C

buttonfuse® TF threads are colour fast to daylight, washing, dry cleaning & perspiration, fulfilling STR quality test for M&S, England.

## intertek

Total Quality. Assured.

They are non-toxic, non-harmful to the skin or the garment & meet the international standard certificate of Oekotex® Standard 100 product class I.

## MMS is a company that strives for sustainability with a commitment to be carbon neutral by 2025

From our factory's roof mounted solar PV panels, to new electric powered service vehicles, MMS is fully committed to being carbon neutral within the next 5 years.

Trees are planted to offset every product we ship and together with the use of 100% recycled packaging, year by year we are reducing our carbon footprint.

All our machines are hand built & engineered to last a lifetime with little requirement for power hungry machinery.

Our global network of local service centres makes sure that our products arrive quickly, travelling the shortest distance & have the minimum effect on the environment.

MMS is committed to becoming a carbon neutral company

Proven & specified by the major brands of the world.

We have the world's largest range of threads + our high stockholding levels mean that they are readily available exactly when you need them most!

The fusible elastic core makes buttonfuse® TF thread super strong!

Our **100% recycled thread** is the ideal partner to the buttonfuse® range of machines. The high quality components **guarantee button security** from shirts to raincoats.

Manufactured to be 100% consistent to ensure a perfect shank appearance with a soft finish. A fusible & highly elastic core makes buttons secure & super strong with no loose ends.

Our thread has been tested to withstand the rigours over the lifetime of the garment. It is certified by Oeko-Tex & complies with all other industry standards.
